

# Tableau Dashboard for Maximo

View - Assess - Respond

The Tableau Dashboard for Maximo leverages Tableau's easy to use data analysis software together with the industry-leading Enterprise Asset Management capabilities of Maximo. Visualize all of your mission critical data and work management activities in a format that enables rapid identification of issues and awareness of coverage gaps, allowing you to assess priorities and shift resources as needed to address issues.

## **Benefits to Maximo Customers:**

- Prioritize work orders based on visual cues
- Publish interactive charts graphs and reports to the web for distribution to large groups
- Data can be shared in a format that is easy to interpret for executive management
- Dashboard format allows for rapid deployment
- Eliminates need for expensive Maximo Spatial or a GIS Database

### **Dashboard Templates Provided for:**

- Meantime to Failures
- % of Emergency Work Orders vs PM's
- Assets by Geography
- % of PM Inspections Overdue
- Top 5 Component Failures on Equipment
- Overall Equipment Effectiveness (OEE)
- Meantime to Repair (MTTR)
- Meantime between Work Orders (MTBWO)
- % of Overtime Hours
- Recovery Time/Point Objective (RTO/RPO)
