

Virginia Information Technologies Agency Awards IBM Software & Services Contract to Triad Technology Partners

BETHESDA, MD – September 29, 2015 – Triad Technology Partners, a Small, Women and Minority-Owned ([SWaM](#)) Certified Business and authorized IBM reseller, announced today that it was awarded a state-wide contract to provide IBM Software and Services to Virginia Information Technologies Agency (VITA). Under this contract, Triad Technology Partners and their subcontractors will provide Virginia Commonwealth state agencies, localities, and higher education institutions with a contracting vehicle for all IBM software solutions, subscription and support, as well as software implementation services.

All customers who purchase via this approved contracting vehicle will realize competitive discounts, exceptional customer support, easy and efficient procurement, quick response times, and innovative ideas. Additionally, this contract furthers [Governor McAuliffe's commitment](#) to 42% of Virginia state procurement purchases going through SWaM vendors.

Triad Technology Partners' Executive Director of IBM Jennifer Stevenson states "We are so pleased that Triad was the only team comprised of all small businesses to receive a contract award. This clearly demonstrates Triad's continued commitment of supporting our customers through innovative contracting solutions via a true small business enterprise. We look forward to teaming with our subcontractors Aikya, International Design Incorporated, Onwire, and SYSUSA, to meet the challenging needs of the Commonwealth of Virginia."

Triad Technology Partners' Chief Executive Officer Bridget Dunnington adds, "Triad is honored to partner with VITA to deliver IBM Products and Services to all entities within the Commonwealth of Virginia. Our Company is committed to delivering superior solutions and service to our customers. Having worked with Virginia IT organizations over the past several years, Team Triad has a unique understanding of the challenges these groups face every day. We are excited to support our customers as they innovate and leverage compelling IBM technologies to deliver results."

"As a female entrepreneur, I particularly appreciate the collaborative spirit of inclusion and opportunity that Virginia is committed to developing. Triad sees this contract as a genuine partnership. We look forward to being the only SWaM provider of IBM solutions and to ensuring success and exceptional assistance to the Commonwealth" says Bridget.
